Crusty White Bread

Serves 8

I love fresh bread that has a chewy crust. In Ann Arbor, we have Zingerman's. I took a baking class at Zingerman's and learned that they have special ovens with water spray to help develop a chewy crust. Later, I read in a Cooks Illustrated magazine that they had a method for achieving similar results at

home by cooking the bread in a Dutch oven. The handle must be able to take the 450-degree heat in this recipe and most plastic handles do not. I combined the Cook's Illustrated recipe with a simpler recipe on a blog by Nagi. (Link) Her version is faster and doesn't require kneading which is becoming more important to me as the arthritis in my thumbs is more bothersome.

Ingredients

- 3 cups bread flour + 1
 Tbsp.
- 2 tsp. Kosher salt
- 2 tsp. (1 package) rapid or instant yeast
- 1 1/2 cups warm (120 deg.)
 water
- Non-stick spray
- 1/2 tsp. sesame seeds

Equipment

- Large metal pot with metal handles
- Large spoon
- Scraper
- Plastic wrap
- Parchment paper
- Hot pads
- Cooling rack

Crusty White Bread:

V	Description	Time (min)	
	Spray bowl with non-stick spray	1	
	In a large bowl, whisk together 3 cups flour and 2 tsp. kosher salt	2	
	Heat 1 1/2 cups water to 120 degrees	1	
	Into the warm water, stir 1 package of yeast	1	/
	With a large spoon, stir to combine into a loose, wet dough (see picture below)	1	
	Cover with plastic wrap and allow to rise at room temperature until double in size	V	3 hrs.
	Place large pot and lid in the oven. Preheat to 450 degrees		
	Cut a piece of parchment paper large enough to lift the dough and small enough to fit in the pot.	1	30
	Transfer the dough onto the paper	1	
	Sprinkle top with 1/2 tsp. sesame seeds	1	
	Carefully remove the pot from the oven with hot pads and remove the lid. Lift the dough into the pot, replace the lid, and return to the oven	2	
	Bake at 450 with the lid on	30	
	Use paper towel to wipe sticky dough from the pan before washing.	2	
	Remove lid and bake until golden brown	14	
	Lift bread from pot using edges of paper. Transfer to a cooling rack. Allow to cool.	10	
	Total: 4 hrs. 26 min
